Mobile Hotspot - Getting Started

Starting up mobile Hotspot

1. Plug AC Adapter into Mobile Hotspot.
2. Plug cable into electrical outlet.
3. Turn switch ON at back of unit.
4. Allow up to 5 minutes for connection.
5. When **Wi-Fi light** and **Signal Strength** are both on, you should be able to connect your device.

AC adapter insert

Connecting to Hotspot With Personal Device

1. Ensure Mobile Hotspot is active (see steps above).
2. Power up device and check Wi-Fi connection settings.
3. See underside of Mobile Hotspot for login information.
4. Select OPL Hotspot Network.
5. Enter Wi-Fi network password.
